Simplifying SAFETY

Safety Consulting
Safety Programs
Management
Support

The benefits in safety training are many....

Mainly, it helps your overall business by raising awareness to your company policy regarding safety in the workplace, improves communication between workers and supervisors, and increases overall safety performance ultimately decreasing injury claims and Workers Compensation premiums.

We can hold meetings, lectures or seminars at your location covering a wide variety of safety related topics to assist you in promoting your company safety values to your employees.

Some popular topics include:

- Hazard Recognition and Control.
- Due Diligence / Safety Responsibilities
- Occupational Health & Safety Committee
- Understanding Safety Regulation Requirements

flexible health and safety solutions that fit your business

OUR PHILOSOPHY

Simplify Safety... for you.

It's a common fact that the majority of companies and businesses in various industries are feeling the pressure and experiencing the challenges of complying with all the health and safety legislation requirements while trying to manage their health and safety system.

This combined with the daily challenges of meeting your own demanding business needs can be overwhelming...

It doesn't have to be that way!

OUR MISSION

To provide British Columbia organizations with the expertise, experience and assistance you'll need to meet these requirements.

We take all the pressure off you so you can focus on your business.

Over 21 years in the industry and a combined 35 plus years of professional experience within our team, we can help you achieve your safety goals regardless of how big or small, your industry, project, or scope of work.

CUSTOM SAFETY PROGRAMS

We can take the pressure off by preparing a comprehensive Health & Safety Program that is compliant with all safety regulations and legislation, customized and tailored around *your* company and specific to your industry and scope of work.

ONLINE SAFETY PROGRAMS

Most companies or businesses already have a website to advertise their products or services. If you already have a website, what better way to compliment it and show your employees and clients what safety means to you.

SAFETY MANAGEMENT SOLUTIONS

Perhaps you need someone to take on the task of coordinating safety for your project from the start, develop a safety program for your company, or assess your current safety management system.

No matter what your needs are...

Our safety professionals are ready to help evaluate your need and start working for you to close the gap.

CLOSE the GAP

WORKING TOGETHER TO PROTECT YOUR FUTURE.

Years of experienced working with many different clients in all industries within Canada and the US..
