Safety Management... Simplified !

TURNKEY SOLUTIONS

Eliminate the need for an elaborate system of excessive storage of paperwork, files, and records on site. **S.M.A.R.T.**

Is a Desktop/Laptop Microsoft Access database that was designed for CSO's, Contractors, and Employers in a wide range of industries that are responsible for managing safety at their workplace.

ZERO DOWNTIME

No special software or advanced computer knowledge required. Installs in less than 10 seconds and you don't even need to have MS Access installed because it comes with a free runtime add in for those without it.

NO LIMITATIONS

Unlimited files,
Unlimited records,
with no restrictions

S.M.A.R.T. provides safety personnel the ability to manage the health and safety of employees, workers, and contractors on multiple worksites more effectively.

Whatever your industry is... workplace supervisors need to stay on top of important safety related information in order to manage safety effectively. Keeping track of workplace incidents, accidents, preventative measures, safety inspections and more is extremely vital to any company. **S.M.A.R.T.** makes this easy for you.

Our Inspiration

ACCESSIBILITY

All the information required to manage safety is in one central location with backup capabilities to avoid lost data.

Because it doesn't require special hardware or software, it runs on any computer or Laptop which makes it very useful for using it remotely.

PRODUCTIVITY

Having all the information in electronic format provides the supervisor or employer a quick glance into the status of their workplace with ability to sort, search and access documents, safety programs, forms, reports... and much much more.

MANAGEMENT SOLUTION

Provides an easy solution to contractor and sub-contractor management and project information for multiple sites. Manage, track and access information on workers, contractors, projects and more whenever you need it.

Worksite Safety Management ...made Easy

Database Modules

- » Personnel
- » Contractors
